To Whom It May Concern:

I am pleased to write this letter of recommendation for Torrey Hills Technologies. We find that the Three Roll Mill Hewlett Packard purchased from them works very well with our printing ink applications. Furthermore, their mixing equipment produces solid results.

Equally impressive is their customer support. Their sales staff and technical support staff are willing to provide hands-on training, very adoptive to customer requests. They are also dedicated, prompt, and friendly. A delight to work with.

With our ongoing experience with Torrey Hills Technologies, it's with pleasure to recommend Torrey Hills Technologies for mixing equipment needs. We are a happy customer of Torrey Hills Technologies' equipment.

Thank you!

Sincerely,

Alexey Kabalnov  
R&D Chemist
