Subject: Letter of Satisfaction

When Lexington Precision entered the Medical compound business we decided to purchase a three roll mill from Torrey Hills Technology. The three roll mill has lived up to all promises in regards to quality and performance at a great price. In addition working with Bill and Kim was a pleasure. They have provided great service with perfect balance of professionalism, knowledge and fun. I am confident Torrey Hills will continue to provide this top level of service as our business continues to grow.

Sincerely,

Chris Poirier
Mixing/Materials Manager
Lexington Precision
